

Colorado Carpet Challenge 2010 Rules

Tech Procedure:

Come up to the tech area at least one race before you are up to allow enough time to get through tech. We will be checking the car for minimum weight, minimum ride height, and tires. We will also be checking to make sure that the wing is below the roof of the touring and WGT cars. We will pass the top three cars from each race back through tech at the conclusion of the race.

Things that we will Tech:

Minimum Ride Height

Minimum Weight

Wing height

Tires (for the spec classes)

Class	Minimum weight	Minimum Ride Height	Wing	Tires
1/12th Scale pan car	730 grams	3mm	See ROAR Rules*	Any
1/10th foam touring car	1420 grams	4mm	Below roof line	Any
1/10th rubber touring car	1420 grams	5mm	Below roof line	Solaris Medium Compound
World GT	930 grams	4mm	Below Roof line	Jaco or CRC spec
Vintage TA	1450 grams	5mm	See VTA Rules***	See VTA Rules***

LIPO Charging and heating:

All LIPOs must be charged in an approved LIPO sack. If you are caught charging outside of a LIPO sack then you will be warned the first time. The second time you will be asked to leave for the day. The third time you will be removed from the race. If you are caught violating these rules you cannot request a refund of any of the racing fees.

No external Heating of LIPO batteries will be permitted. Batteries should come to tech at or below ambient room temperature.

Marshaling and rough driving:

Once the race is over please place the car on the provided table and then proceed to your marshalling position for the next race. You will be required to either marshal or find someone to marshal for you after every race that you are entered in. Even if you do not run in that race, but you are entered we will need you to marshal. Each person will be assigned to a marshal spot based on their assigned car number. If you do not marshal you will be warned once then if you or your substitute does not marshal your last round will be thrown out. Please make this easy and help all of your fellow racers have a great weekend of racing.

Rough driving will not be tolerated! Let's keep the racing clean and fun and if rough driving is found you may be required to do a stop and go by the announcer or race director. It is important to be a courteous driver, if you take someone out then please stop and wait outside the line of traffic until the car you affected gets by. Use some common sense and have fun.

Traction Compound:

Corally Jack the Gripper or Epic Sticky Fingers are the only approved traction compounds for the race.

Spec Tires:

WGT will allow both Jaco and CRC WGT Spec tires to be ran in the class
Solaris Rubber tires will need to be purchased at the race for all rubber tire classes

If you have any questions please contact one of the club officers.
